LEVER INDUSTRIAL
GROUP

**THE
DISTINCTION
LIES IN
THE**

**DETAILS
AND
QUALITY**

LEVER Industrial Group is established to produce the highest quality door handles and other luxury home hardware made of brass using the most up-to-date and advanced production lines. In order to meet the needs of our valued customers, all products are offered in a variety of 47 types of colors and platings, as well as lifetime warranty.

LEVER is proud to rely on the knowledge of its engineers and diligent workers, and also looking at the development path of this industry in the world, to carry out all production processes from design to packaging completely in house.

LEVER INDUSTRIAL GROUP
HAMIDREZA HAJAJIZADEH (CEO)

WE ARE HERE TO TURN YOUR IMAGINATION INTO REALITY!

In our collection, all stages of production, from design of parts to molding, to standard packaging and installation, are subject to clear and precise instructions. Only in this way is it possible to reach a desired result.

WE ARE CREATIVE

The existence of great variety and tastes in the manufacture and design of this product is mandatory for us.

WE ARE FAST

The expansion of the production industry of this product's parts has been the result of the need for speed in the components. The use of new technology in the design and manufacture of molds on the one hand and compliance with the principles of industrial production on the other hand is the main pillar of this speed.

WE ARE EAGER

The young and thoughtful staff of our team are interested in experiencing new ways of working in this field. The implementation of each new product in our collection is accompanied by new excitement. Our enthusiasm in creating new works, helping to change the shape and improve the new product in our country is the origin of this excitement.

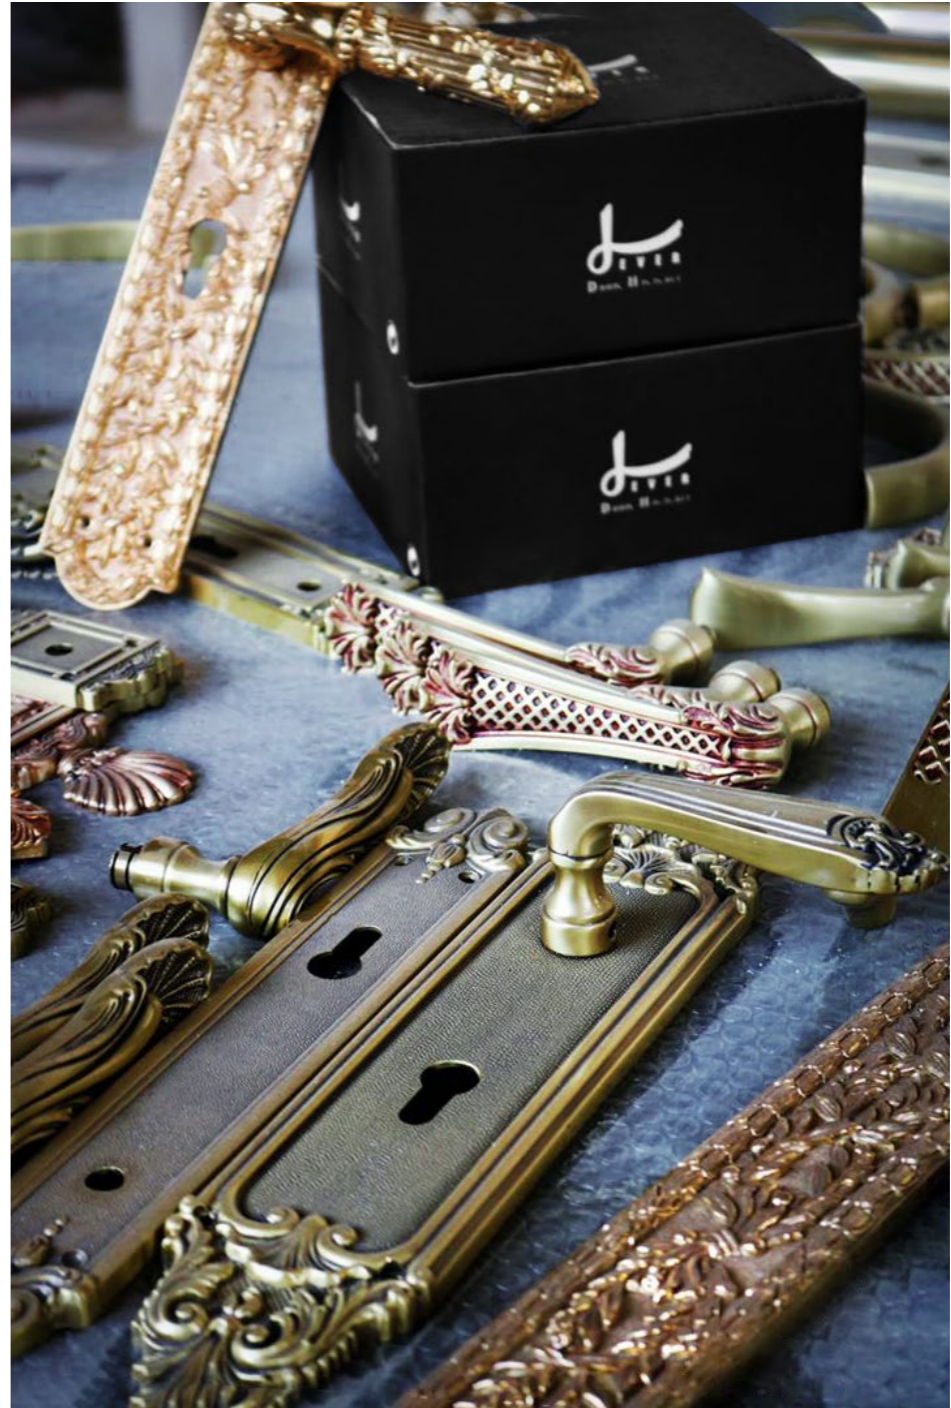

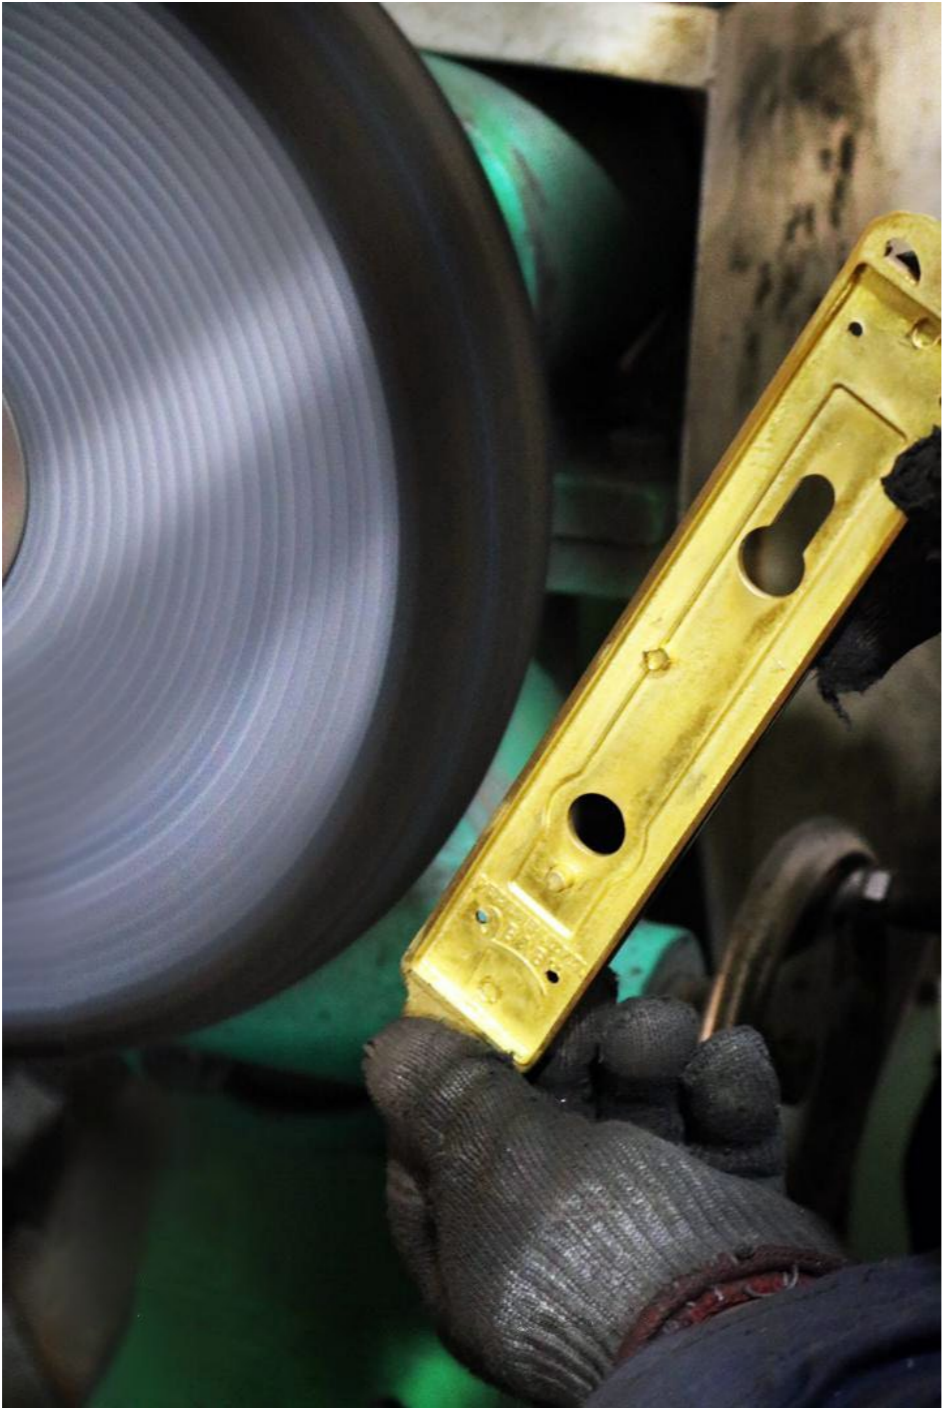

WE ARE COMPETITIVE

We have created a history of familiarity with various luxury products and the communication of innovations in visiting international exhibitions in this field inside the country. In this way, we can provide you with the most appropriate and economical offer for purchase and implementation.

**SPECIFICATIONS
OF THE
PRODUCTION
PROCESS
IS:**

①

Including the manufacture of various bronze raw material injection molds

②

Strength tests

③

Ingredient tests

④

Standardization

⑤

Product quality control and constant monitoring

We included the product grouping and its variety in the Catalogue.

In the collection of these products and other products that you can imagine, we make.
